EUROPE 2024: ZURICH, SWITZERLAND

After a fine visit to Basel, we make our way through the city daily life, and through a large bike-park area, to depart from the city's Hauptbahnhof (Main Train Station). It's a pleasant summer day at the end of July, and we'll be heading away from the Rhine and into the heart of Switzerland. We missed the big annual Art Basel extravaganza that happens in June, but we had several wonderful days of wandering this fine city on our own. And now we'll be exploring more of this exquisite country on our way to **Zürich**.
